SPECIAL PRICE LIST NO. 93

Scarce Mint State and Proof $3 Gold

There is no substitute for quality. Years of experience have shown the best coins to purchase for future appreciation are those in unquestioned Mint State and Proof condition. Coins of this caliber are always subject to the greatest market demand. Because of this demand, these quality coins have been systematically removed from the numismatic market resulting in spectacular gains within the last five years for many issues.

On the following page, you will find ten different Three Dollar gold pieces of *unquestioned quality and rarity.* They have been selected from our vast rare coin inventory and are presented along with their combined values for 1973, 1975 and 1978. For comparison purposes, we have used the values from *A Guide Book of United States Coins* (Red Book) by R. S. Yeoman.

In the five years from 1973 to 1978, these Three Dollar gold pieces *increased in value by 326%!* This is the equivalent of a *compounded interest rate greater than 33% per year!* In just three years, 1975 to 1977, these coins more than doubled in value – an increase of over $14,000! Naturally, while we cannot guarantee the future performance of these coins, we believe the numismatic market continues to remain strong for choice, desirable items such as these Three Dollar gold pieces.

Untold millions of United States gold coins are gone forever – either lost, mutilated, or melted. Undoubtedly, this loss includes a large number of Three Dollar gold pieces. This, in addition to their unique face value and position in this nation's monetary system have made these coins a favorite among collectors. Strict *Mint State* Three Dollar gold pieces (many of the "Uncs" and "Gems" on the market today are actually circulated pieces which have been polished or cleaned) are extremely scarce. Don't be confused by other offerings you may have seen! Paramount guarantees each coin we sell to be accurately and conservatively graded! Your complete satisfaction is *always* assured.

Included in an estate we recently purchased was a small number of frosty 1899 Ten Dollar United States gold pieces in Mint State 60. Knowledgable numismatists know that this coin is much scarcer in strict mint state than its mintage would lead you to believe.

This is undoubtedly a wonderful chance for the collector to obtain this seldom offered coin. We have about a dozen pieces in stock, so order soon — before they're gone.

A ONE-YEAR AND ONLY-YEAR TYPE

1964 – the first year of issue for the Kennedy half dollar. 1964 was also the only year this coin was made of 90% silver. *The only year!*

We have located a few rolls of this popular half dollar in brilliant *proof.* These low mintage, mirror-surfaced coins are gorgeous. Less than 4 million 1964 proof Kennedys were struck. *This represents only 1% of the entire 1964 half dollar mintage!* Compare this mintage with that of other popular United States coins and you can see why we are suggesting you should order soon. You will be glad you did!

1975-S Proof Set

1975-S Proof Set: contains the popular 1975-S Lincoln cent

With The Proof-Only Cent

The San Francisco Mint has issued an "S" mintmarked proof set every year since 1968. While these proof sets have always contained "proof-only" issues (dimes, quarters and half dollars), 1975 was the first year a proof-only cent was included. *No 1975-S Lincoln cents were struck for circulation!* As soon as this was known, collector response was immediate. The 1975-S proof set quickly became the most popular proof set in fifteen years!

We have several 1975-S proof sets available for $26.50. Each set is *government sealed* in a hard plastic case and contains six Proof 65 coins, cent through dollar.

Six-Piece 1975-S Proof Set, Proof 65, Only **$26.50**

LAST OF THE 90% SILVER DOLLAR

A Complete Peace Dollar Set

Paramount is offering YOU the opportunity to be a proud owner of a *complete* set of Peace dollars – at a *down-to-earth price!* Each set is composed of a Peace dollar of *every date* and *every mintmark* issued from 1921 through 1935.

The coin which starts this set is the scarce and highly desirable 1921 Peace Dollar – the only true high relief dollar ever struck. With a mintage of one million, this coin is just the beginning of a veritable treasury of *low mintage silver dollars!* Fourteen of these dollars have mintages of under two million of which four are under one million. This includes the *scarce* 1928 Philadelphia issue – a Twentieth Century rarity.

Every coin contained in these sets has been hand-selected and approved by Paramount's silver dollar experts. The only coins which they approved were those grading Fine 12 *or better.* Also, they guarantee that at least one silver dollar in each set will be mint state.

You will be proud to own and display one of these Peace Dollar sets. Each comes mounted in a deluxe bookshelf style album for your viewing pleasure. We know you will be pleased. Mail your order today.

Early 1960's Proof Set Package

1962 government sealed proof set.

The early 1960's – the days of John F. Kennedy, Project Mercury, the Peace Corps and the Twist. While certainly not "days of old", the early 1960's do represent a time when many of today's coin collectors had not yet started their collection. And that's a shame, because several events of numismatic importance took place during that time. Included among these events were:

- the last 90% solid silver coin issued by the United States
- the last of the Franklin half dollar
- the first of the Kennedy half dollar
- the *only* 90% solid silver Kennedy half dollar (1964)
- the last time United States proof sets were struck at the Philadelphia Mint
- the discovery of the 1960 Small Date Lincoln cent which rocked the numismatic fraternity

We have assembled an "Early 1960's Proof Set Package" consisting of one *government sealed* proof set from each year, 1960 through 1964. Also included in this package is the scarce and very desirable 1960 *Small Date* proof set, also government sealed. (This set is differentiated from the standard "Large Date" 1960 proof set by the size and shape of the numerals in the date of the cent.) This proof set package reflects *each and every historic numismatic event listed above!*

Six different United States proof sets: 1960, 1961, 1962, 1963, 1964, and the scarce 1960 Small Date, each relating to the early 1960's and its numismatic history. An unbeatable proof set package. Order now while this package is still available.

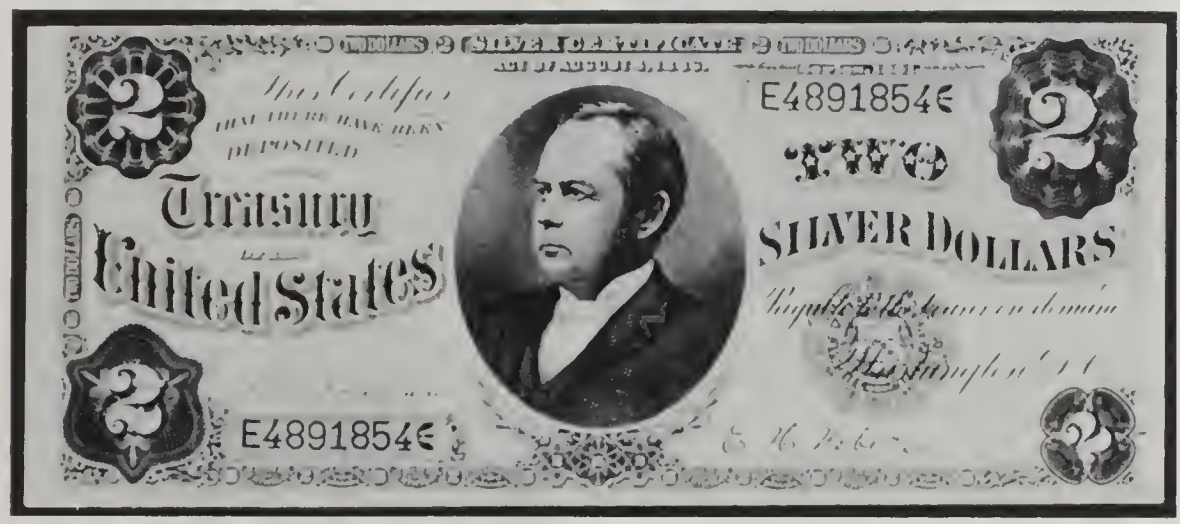
Rare 1891 $2 Silver Certificates Discovered In Estate



Recently the personal coin and currency collection of an Ohio bank officer was sold. Among the many notes in his collection were a small group of extraordinarily choice 1891 $2 Silver Certificates – the famous "**William Windom**" notes. Usually these rare notes are found only in worn grades, so you can well imagine our surprise and delight when we had the opportunity to purchase five of them in fresh, Crisp Uncirculated condition – we now have the finest selection of Windom notes in the United States!

William Windom served as our U.S. Secretary of the Treasury for 20 years until he died in office in 1891. That same year the Treasury engraved and issued a new Silver Certificate, redeemable for two silver dollars, as a tribute to Mr. Windom. The note has a red Treasury Seal, blue serial numbers and bears the Rosecrans-Nebeker signature combination.

The Windom $2 notes were issued for only a short time before they were replaced by the "Educational Series" $2 note of 1896. Because of their rarity they have steadily appreciated in value over the years, and choice condition specimens are destined to become even rarer and more sought after in the future. The normal price for this note in Uncirculated condition is $975 (and we offered a perfectly centered note for $1485), but for this ad only your cost is $875. Save yourself $100 and make an outstanding acquisition as well! This offer will not be repeated.

Fr-245, 1891 $2 Silver Certificate, *Crisp Uncirculated* **$875.00**

The Kennedy Collection

In the near future, Congress will have to answer some tough questions concerning this nation's coinage. One of the problems it will have to face is the possible *total elimination of the half dollar denomination. TOTAL ELIMINATION!*

The Kennedy Half Dollar has been issued for just fourteen years. But in that short time, it has been subject to frequent change. For example:

1964
90% Silver Content

1965-1970
40% Silver Content

1971 to Date
Copper-Nickel

1976
Popular
Bicentennial Design

With its possible elimination in sight, now may be the time to seriously consider adding the Kennedy Half Dollar set to your collection. If you agree, then take advantage of our "Kennedy Collection" offer.

We are currently offering a Kennedy half dollar set containing 26 different coins issued from 1964 (first year of issue) through 1976 (Bicentennial design). This collection has been mounted in a deluxe bookshelf type album and will include eight different "proof-only" San Francisco issues – one of each date issued from 1968 through 1976. *None of these "S" mint coins were ever released for circulation* and were available only in government-issued proof sets! Also included is the scarce mint state 1970-D. This half dollar was available only as part of the 1970 mint set and like the proof-only issues – *none were released for circulation.*

The 26-Piece (1964-1976) Kennedy Half Dollar Collection is available for only $99. Order your set – TODAY!

1895-S Silver Dollar From the Redfield Collection

One of the Rarest Silver Dollars You Can Own

We were quite surprised to find a *very small number* of outstanding Mint State 65 examples of the well-known silver dollar rarity, the 1895-S, among the Redfield coins. Its low mintage of only 400,000 places it as one of the rarest of the entire series. Who knows how many of this date were melted by the government as a result of the Pittman Act of 1918 when *over 270 million silver dollars were melted?* All we know for sure is – most 1895-S dollars are heavily circulated. This lends credibility to the theory that the vast majority of 1895-S dollars were either placed directly into circulation or melted.

If you are finishing your dollar collection or just starting, we know you will demand the finest 1895-S available. The limited number of 1895-S Morgan dollars we acquired from the Redfield collection are the finest. *Each coin we offer is a full MINT STATE 65!* Our conservative grading guarantees it! And remember – each MS-65 Redfield 1895-S silver dollar we sell carries our EXCLUSIVE *Six-Month Return Privilege!*

The Corn Belt Commemorative

The Iowa Statehood Centennial half dollar was one of the first United States commemoratives to be struck following the Second World War. This 1946-dated coin has a mintage of just 100,057 pieces, which is quite small when compared to the millions and millions of coins struck today. The obverse of the Iowa commemorative was adapted from the upper portion of the State Arms and features an eagle with a ribbon. The reverse shows the first stone capitol building in Iowa City.

Because this attractive coin is part of the popular Commemorative series, choice mint state examples are in strong demand. But these coins received wide distribution. Therefore, quantities are difficult to locate with many showing signs of mishandling.

We recently obtained an original roll of the 1946 Iowa Commemorative half dollars. This roll was included in a stamp collection we purchased where it had laid undisturbed for thirty-one years. Apparently, the stamp collector had started to save coins, but after acquiring the roll of Iowa commemoratives, decided instead to concentrate on stamps.

Paramount's rare coin experts have used their conservative grading and separated the coins from this roll into Mint State 60 and Mint State 65. Naturally, because we have only one roll of this popular coin, quantities are definitely limited. Therefore, if you would like to add an *original* Mint State Iowa Commemorative Half Dollar to your collection, we suggest you order NOW – before it's too late!

The Legendary Gold Sovereign

The legendary British gold sovereign can be yours for only $65. First issued in 1817 during the reign of George III, the sovereign quickly established itself throughout the world as an easily recognized gold coin useful in trade. Its popularity has continued to grow until it is now perhaps the most popular gold coin of its size and is housed in many collections.

NOW is your chance to obtain a beautiful example of this historic coin. We have several pieces in stock featuring the "Young Head" design of Queen Elizabeth II, each struck between 1957 and 1968 and grading AU-55 to MS-60. Because of the limited number available, dates will be of our choice.

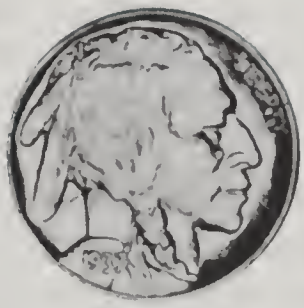
1937 BUFFALO NICKEL ROLLS

At Below Catalogue!



No other coin reflects the North American continent as well as the Buffalo nickel. This majestic coin features the boldly designed bust of an American Indian on the obverse, and the passive beauty of the powerful Buffalo on the reverse. Its design is such that it spans the taste of generations and is instantly recognizable to both collectors and noncollectors alike.

We currently have 12 rolls of the 1937 Buffalo nickel in stock. Each roll is Mint State 60 or better and contains forty pieces. According to the *1978 Guide Book of United States Coins* (Red Book) by R. S. Yeoman, the 1937 Buffalo nickels list for $11 in uncirculated condition. That is the equivalent of $440 for a forty-piece roll. But we are not asking $440 per roll – or anything near it! While our small stock remains, you may obtain a roll of Mint State 60 or better 1937 Buffalo nickels for just $295. That's less than $7.40 per coin – or just 67% of Red Book!

But order soon. These Buffalo nickels are certain to be a quick sellout.

The Battle of Antietam

In 1937, the United States Philadelphia Mint issued a commemorative half dollar for the seventy-fifth anniversary of the Battle of Antietam. This battle, one of the bloodiest in the American Civil War, saw the Confederate army escape intact, resulting in the war continuing for three more years.

The Antietam commemorative has a low net mintage of just 18,028 pieces. Opposing generals Robert E. Lee (Confederate) and George B. McClellan (Union) are shown on the obverse. The reverse pictures Burnside Bridge and peaceful Antietam Creek, sight of some of the fiercest fighting of the battle. (An interesting historical sidelight to the Battle of Antietam is that President Lincoln was informed that it was a complete Union victory. Believing this to be the decisive victory he was looking for, he issued his famous Emancipation Proclamation.)

Commemorative coins are becoming very popular. As more collectors enter this market, the few available pieces may all but disappear. This is especially true of mint state specimens like the Antietam commemorative. Collectors are demanding the finest quality possible. That is why we urge you to take advantage of this offering. Once these lustrous, MS-65 coins are gone, who knows when we will be able to replace them in our stock?

HALF DOLLAR TYPE SET
Quality Paired With Beauty

What do the following four half dollars have in common?

- **Walking Liberty**
- **Franklin**
- **1964 Kennedy**
- **1976-S Bicentennial**

They form a very attractive and most interesting set – the "United States Type Half Dollar" set.

We have taken these four different type half dollars and have mounted them into a custom hard plastic holder. They form a very desirable set as each coin is *top quality*. The Walking Liberty and Franklin half dollars are in Mint State 65, as is the 1964 Kennedy. (1964 was the *only year* the Kennedy half dollar was made of *90% silver!)* The 1976-S Bicentennial half dollar which is included is a brilliant Proof 65.

This beautiful set would make a wonderful addition to any collection. And – it also would make a great gift that would be appreciated for years to come! Order today.

CANADA

29-Pc. Silver Dollar Set

Canadian Silver Dollars, well known for their attractive designs and low mintages, have long been a favorite of World Crown collectors. Struck for circulation between 1935 and 1967, with the exception of the war years 1940 to 1944, these silver dollars have recently been enjoying increasing popularity with collectors in the United States.

Consisting of *twenty-nine pieces,* this set includes ten different type coins, six of which are only-year-of-issue commemoratives. Mintage figures of under 500,000 pieces are common. Six coins in this set have a mintage of under 95,000. Of the total number of Canadian dollars issued from 1935 through 1967, *71% were struck during the last five years,* 1963 through 1967. Several dates, especially those before 1950, are very difficult to locate in strict mint state.

We have gone through our vast stock of Mint State 65 Canadian silver dollars and have assembled a few twenty-nine piece dollar sets. Among the coins contained in this set are:

1935 – George V, First Year of Issue, Silver Jubilee Commemorative and One Year Type

1936 – George V, One Year Type

1939 – George VI, Royal Visit Commemorative, One Year Type

1945 – A Key Date, Low Mintage of 38,391 Pieces

1947 – Also a Key Date, Mintage of 65,595 Pieces

1948 – The Number One Key to the Series, Only 18,780 Pieces Minted

1949 – Newfoundland Commemorative, One Year Type

1953 – Elizabeth II, First Year of this Type

1958 – British Columbia Commemorative – the Famous "Totem Pole" Design, One Year Type

1964 – Charlottetown Commemorative, One Year Type

1967 – Canadian Centennial Commemorative, One Year Type

A major concern when attempting to build a collection of Canadian Silver Dollars is condition. Many specimens are available in circulated grades, but true mint state coins are very difficult to locate. In assembling this collection, we have *hand-selected* each coin for its overall high quality and brilliance. Only MS-65 coins will be included.

If you are part of a growing number of collectors who appreciate beauty as well as quality, we know this Canadian silver dollar collection is for *you!*

1879-S
Morgan Dollar Varieties

Two Desirable and Scarce Coins

Does your collection contain the two varieties of the 1879-S Morgan silver dollar? Unknown to many collectors, these varieties do exist and are collected by many as part of the Morgan Dollar series! As a matter of fact, they are pictured on page 154 of the latest (1978) *Guide Book of United States Coins* (Red Book) by R. S. Yeoman.

The distinctions are most clearly seen in the area of the eagle's breast on the reverse. Type I with a parallel top arrow feather is referred to as the "flat breast" (concave) variety. Type II has a slanted top arrow feather and is called the "rounded breast" (convex) variety.

We have placed both varieties in a custom hard plastic holder. They have been mounted so that you will be able to show your friends and fellow collectors the difference in design. Both coins will grade Mint State 60 or better.

Because of the scarcity of the Type I dollar, this attractive two-piece set is a favorite of all collectors. If you have not yet added this set to your collection, DON'T LET THIS OFFER SLIP BY! Order your set, today.

FROM HAWAII

UA MAU KE EA O KA AINA I KA PONO

The Hawaiian Islands – a dream for millions of vacation-minded travelers. As hundreds of tourists flock to this island paradise every day, it is hard to imagine that Hawaii was once an independent island kingdom with its own circulating national coinage. But numismatic history can be very strange. Today, Hawaiian coins which once freely circulated are very scarce and in great demand.

In 1881, King Kalakaua I of Hawaii took a trip around the world. While on this trip, it was suggested that Hawaii should have its own coinage. This idea intrigued him, especially when considering the island's commerce was then being conducted with a conglomeration of U.S., English, French, and Mexican coinage, as well as local trade tokens. As a result, Hawaii issued its first – and only – circulating silver national coinage in 1883.

These coins were issued in denominations of ten cents, twenty-five cents, fifty cents, and one dollar. Designed by Charles Barber, Chief Engraver of the U.S. Mint, and struck in San Francisco, their metallic composition is identical to U.S. coinage standards. They proved very popular with the people of Hawaii, and were widely circulated. But after this island kingdom became a U.S. possession in 1898, these coins were withdrawn and melted. Today, examples of the 1883 Hawaiian coinage are seldom seen and in great demand.

We have been fortunate to locate a very small number of attractive 1883 Hawaiian quarters in *Mint State 65!* The bust of King Kalakaua I graces the coin's obverse. The reverse features the Hawaiian coat of arms and this inscription: UA MAU KE EA O KA AINA I KA PONO. Translated, this inscription reads "The life of the land is in righteousness".

It is quite remarkable that coins as nice as these still exist after almost 100 years. If you have even the slightest desire to add a mint state Hawaiian quarter to your collection, THIS IS YOUR CHANCE! An opportunity of this magnitude is seldom encountered, so order today. You will be glad you did.

THE PHILADELPHIA INDIANS

Good news! You can now purchase a Philadelphia Indian! No, not a member of an expansion ball club, but an original, lustrous Mint State 65 Indian Head type cent struck at the Philadelphia Mint at least *70* years ago.

A winning Indian cent can now be added to your team for only a fraction of a free agent's salary. Each coin we offer is completely original (a very important consideration in light of today's quality-conscious collector) and is a lustrous MS-65. A quality jewel!

Our rare coin buyers have reported that they have recently noticed the supply of choice, mint state Indian cents are quickly disappearing. The quality we insist upon just isn't there! If you would like to improve *your* team by adding a Philadelphia Indian – don't delay! Collector demand is now greater than ever.

Our stock of quality, MS-65 Indian cents is limited, so we are offering these desirable coins as a *type,* rather than specific dates. With the current demand for these choice Indian cents being as strong as it is, we certainly don't expect them to last. Order your Indian cent *today.*

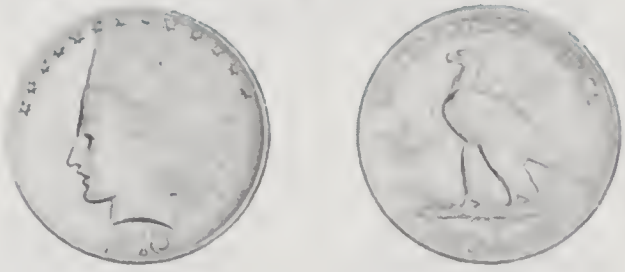
The Magnificent $10 Gold Indian



In the first part of the Twentieth Century, President Teddy Roosevelt ordered a design change for all United States gold coins. He had long admired the classic designs of ancient Greek coinage and had hoped to emulate it. This new design change resulted in several beautiful and bold designs, not least of which was the $10 Indian.

The obverse of the $10 Indian features the magnificent beauty of Liberty wearing a full-feathered Indian war bonnet. The reverse shows the bald eagle whose power and dignity is immediately recognized. The $10 Indian is truly an outstanding coin.

Unfortunately, a great many $10 Indians found their way into the melting pot after President Franklin Roosevelt (Teddy's distant cousin) took the United States off the gold standard in 1933. This one act forever reduced the number of possible available specimens for all future numismatists. Thus, the few surviving pieces must satisfy the needs of all current, *and future,* demands.

The $10 Indian is very popular because of its limited availability and unquestioned beauty. Many collectors who normally do not even collect gold coins often find themselves adding this coin to their collection. Once you see it, you will know why.

If you appreciate outstanding beauty, we know you will want to add the $10 Indian to your collection. Order yours today.

ALABAMA 2X2 COMMEMORATIVE

The Alabama Commemorative Half Dollar was issued in 1921 in commemoration of the one hundredth anniversary of the admission of the State of Alabama into the Union. It was designed by noted sculptress Laura Gardin Fraser, wife of James Fraser, designer of the Buffalo nickel.

The Alabama half dollar is important to numismatic history as it was the first United States coin to bear the portrait of a living person – Alabama Governor Thomas E. Kilby. His portrait shares the coin's obverse with that of William Bibb, first governor of Alabama. The reverse shows the great seal of Alabama featuring an eagle and United States shield.

Two varieties of the Alabama half dollar were issued for a combined mintage of just 65,044 pieces. Of this, a mere 6,006 – or less than 10% – were of the variety with a "2X2" showing in the coin's obverse field. This variety was minted in October, 1921 with a "2X2" emphasizing Alabama's ranking of being the 22nd state to join the Union.

At the Metropolitan Washington coin show, our rare coin buyers purchased a very small number of the scarce, low mintage 1921 Alabama Commemorative Half Dollars with the "2X2". Each coin is an original Mint State 65 and were *hand-selected* for their attractive, sharp strike! They would be the prize of any collection.

Their extremely low mintage and beautiful appearance are certain to make the "2X2" Alabama commemoratives complete sellouts. Don't miss this opportunity to add these wonderful coins to your collection or portfolio. Order now while they are still available.

21,120

21,120 – that's the maximum number of 1942 proof sets which could possibly exist. When compared to the .4 million proof sets issued in 1976, it suddenly becomes very clear how few 1942 proof sets there really are.

We have five 1942 six-piece proof sets in stock. Each set contains a Lincoln Cent, Jefferson Nickel, Mercury Dime, Washington Quarter, Walking Liberty Half *and* the scarce 1942 *silver* nickel.

1942 is the *only year* the "wartime" silver nickel was issued in proof. This makes it not only a favorite of *proof* set collectors, but also *type* set collectors who appreciate it for its only-year-of-issue value. Because many of these collectors have only the 1942 proof silver nickels in their collections, the *total* number of 1942 proof sets with both the silver and regular nickels is definitely much less than the already very low mintage of 21,120.

If you have an eye for value, we know you would like to add the scarce 1942 six-piece proof set to your collection. But with only five sets in stock, you should not delay. Order now.

3-PIECE MINI CARSON CITY DOLLAR STARTER SET

For the collector who appreciates the beauty and desirability of Mint State Morgan silver dollars, but whose collection is tied to a budget, we would like to introduce our "3-Piece Mini Carson City Dollar Starter Set". This set consists of three brilliant Mint State 60 *or better* Morgan silver dollars from the very popular Carson City Mint. The three dates in this Starter Set are:

1882-CC 1883-CC 1884-CC

These Carson City silver dollars represent a historic and romantic period of the United States. Just by holding one of these beautiful coins, thoughts of the "Old West", cattle drives, and bouncing stage coaches come immediately to mind. But even more important than their thought-rendering ability is the fact that these mint state silver dollars are becoming very difficult to locate!

In the ninety years since they have been minted, Carson City dollars have been spent, bent, lost, damaged or melted. How many *really strict* mint state dollars can possibly be left for the collector of 1977? That is why we know you will want to take advantage of this offering. If not, then you are missing a fantastic opportunity to get in on the ground floor of what is now becoming the next BIG area of collecting! Compared to its possible potential, the prices you have to pay *now* could be just a fraction of what these notes may bring in the near future.

Do you remember just ten or twelve years ago when a silver dollar could be purchased for little more than its face value? How much does that same coin cost today? Ten dollars? Twenty dollars? More? Today, World Paper Money is in the very same position silver dollars were in those few short years ago. Don't let this opportunity slip by! Start *your* collection of world paper money NOW!

One of the most popular areas of world paper money collecting and investing is presented in this month's *Paramount Collector* – the historic and attractive notes of Palestine and Israel. Many of these rare and desirable notes are offered this month, including the possibly *unique* 5-piece 1948 Specimen Set. You are certain to find an item of interest worthy of *your* collection. Place your order – TODAY!

(Catalogue numbers, when shown, are according to the 1977 edition of *World Paper Money* by Albert Pick.)

LOW MINTAGE BTW COMMEMORATIVE SETS

For the specialist, we are offering complete Philadelphia, Denver, and San Francisco year sets of the popular Booker T. Washington commemorative half dollar for the years 1946, 1947, 1948 and 1949.

The BTW (as this commemorative is popularly called) is very easy to locate as an individual type coin, but complete sets are another matter. They are very, very difficult to find. And no wonder! Just take a look at their very small mintages:

1946 BTW-PDS sets .....only 200,113 can exist
1947 BTW-PDS sets .....only 100,017 can exist
1948 BTW-PDS sets .....only 8,005 can exist
1949 BTW-PDS sets .....only 6,004 can exist

With today's mintages often numbering into the BILLIONS, it is next to impossible to imagine a mintage figure of only a few thousand! Now – *you* can own one (or all!) of these low mintage sets.

Our rare coin buyers just returned from a major coin show where they purchased several large coin collections which included several of these hard to find BTW sets. In comparison to their availability, they are priced unbelievably low. So, if you are a commemorative specialist – or just someone who appreciates good value – place your order now!

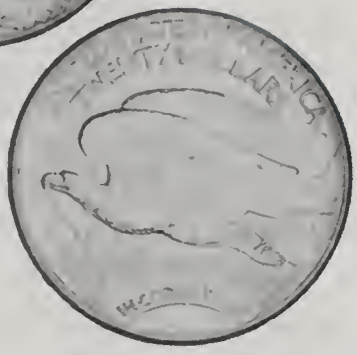
United States Double Eagles For The Demanding Collector

(Saint-Gaudens Design)



(Liberty Head Design)

The largest United States gold coin struck for circulation was the twenty dollar gold piece (Double Eagle). This coin is larger than a half dollar and contains almost one ounce of gold. It was issued in two basic types – Liberty Head (1850 to 1907) and Saint-Gaudens (1907 to 1932).

The Double Eagle has become very popular with collectors. Not only are people drawn to this coin for its beauty and gold content, but also because of the era it represents – the "good old days".

If you would like to add a beautiful and prestigious coin like the Double Eagle to your collection, now is the time! We have several pieces in stock – both the Liberty Head and Saint-Gaudens types in MS-60 and MS-65. They are accurately graded and fully lustrous. We know you will be pleased!

LOW MINTAGE CANADA SILVER DOLLARS

1945 Canadian Silver Dollar
Mintage: 38,391

1948 Canadian Silver Dollar
Mintage: 18,780

Early Canadian Silver dollars are known the world over for their very low mintages. Often, only a few thousand pieces were struck for any one year. This low mintage and their attractive design has caused tremendous interest in the entire Canadian dollar series.

Canada produced just 38,391 silver dollars in 1945, only 18,780 in 1948. For comparison, *the United States produced more silver dollars during one average working day in 1878 than the total number of Canadian dollars dated 1945 and 1948!* Is it any wonder why Canadian silver dollars are eagerly sought by thousands of collectors?

We currently have in stock a few pieces of the scarce 1945 and 1948 Canadian dollars. Each coin is Mint State 65 and features the bust of King George VI of England on the obverse and the popular Voyageur design on the reverse. The 1945 dollar is available for $450 and the 1948 dollar for $950. Or purchase both coins for only $1295. This represents a savings of $105!

When you compare the price and mintage of Canadian silver dollars with Morgan and Peace dollars, we are sure you will agree that Canadian dollars have a very interesting future.

BULLETIN!

NO MORE HALF DOLLARS

DON'T BE TOO SURPRISED if you see a headline similar to this in your local newspaper in the future. All indications point to the probable elimination of the half dollar as a circulating coin. 1977 could very well be its last year of issue! If that happens, future generations would probably not even recognize a half dollar, let alone own one.

If production is stopped, you can be certain the American public will keep every half dollar they can locate. But you can do better than that. You can own half dollars which the majority of the public does not even know exist – the popular *proof* Kennedy half dollars from the San Francisco Mint! *No Kennedy half dollars were ever issued for circulation from this mint!* Instead, these proof half dollars were placed in proof sets and sold directly to collectors.

Unlike many coins issued in recent years, these mirror-surfaced "S" Mint Kennedy half dollars all have low mintages – often less than 3 million pieces. Compare that mintage with the tens of millions of circulation-strike Kennedys produced each year and it is easy to understand their popularity.

We are offering two different proof-only Kennedy half dollar rolls: 1968-S (40% silver) and 1971-S (copper-nickel). Each roll contains twenty brillia..t and magnificent proof Kennedy half dollars. Both dates have low mintages and are priced to sell. Order your proof Kennedy half dollars TODAY!

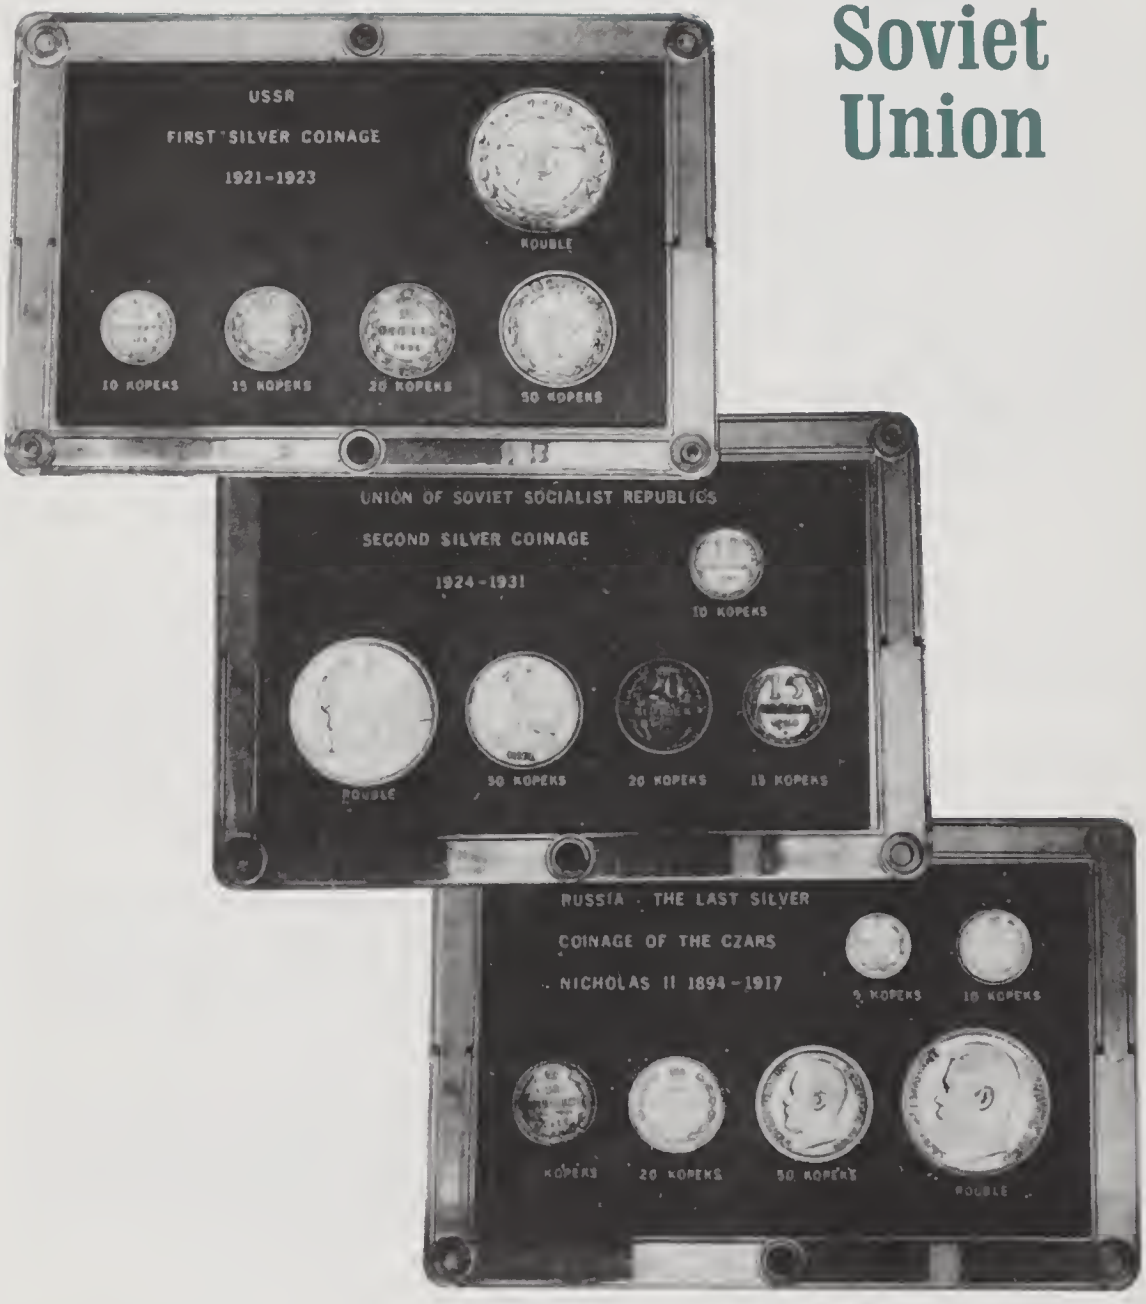
Early 20th Century Silver Type Sets From Russia and the Soviet Union



As a result of our recent offerings of modern Soviet proof-like sets, we received many requests regarding the availability of earlier Russian and Soviet coinage. Until now, many Russian/Soviet coins were difficult for North American collectors to obtain, but as a result of a special limited purchase from the Bank for Foreign Trade of the U.S.S.R., we can offer you high quality, silver type sets containing coins issued between 46 and 80 years ago! These coins span the period of Czar Nicholas II through the Revolution and into the early 1930's.

We have assembled three separate type sets, each reflecting an entirely different segment of Russian/Soviet numismatic history. The sets are as follows.

Set I – Russia, The Last Silver Coinage of Czar Nicholas II

Nicholas II (1868-1918), the son of Alexander III, was born in St. Petersburg (Leningrad). During his younger years, he served in the Russian military and travelled extensively. He became czar in 1894 upon the death of his father. He was married to Alice, Princess of Ilesse-Darmstadt, granddaughter of Queen Victoria of England.

This is an important six-piece all silver set because it numismatically represents the last silver coinage featuring the bust of a czar. The bearded bust of Nicholas II is featured on the two largest silver coins – the 50 kopecks and one rouble. All six coins carry the ornately designed two-headed crowned Imperial eagle. Included are these denominations:

Denomination	Silver Fineness	Diameter	Denomination	Silver Fineness	Diameter
5 Kopecks	.500	15 mm	20 Kopecks	.500	22 mm
10 Kopecks	.500	18 mm	50 Kopecks	.900	27 mm
15 Kopecks	.500	20 mm	One Rouble	.900	34 mm

This six-coin set is mounted in a custom plastic holder which allows easy display and offers maximum protection for these historic coins. The six coins will grade Fine or better.

Set I **$18.50**

Set II – U.S.S.R., First Silver Coinage (1921-1923)

This set of five silver coins represents the first national coinage following the Revolution. Included is the famous and very popular "star" 50 kopecks and one rouble. The hammer and sickle is a prominent device in the reverse design which is common to all five coins. Interestingly, the Soviet Union at this time was referred to as the Russian Soviet Republic. This is evidenced by the initials "PCCP" on the reverse. This set contains the following five coins:

Denomination	Silver Fineness	Diameter	Denomination	Silver Fineness	Diameter
10 Kopecks	.500	18 mm	50 Kopecks	.900	27 mm
15 Kopecks	.500	20 mm	One Rouble	.900	34 mm
20 Kopecks	.500	22 mm			

These five coins, representing the first silver coins struck after the Revolution, are attractively packaged in a custom plastic display holder. The coins in this set will grade Fine or better.

Set II **$29.50**

Set III – U.S.S.R., Second Silver Coinage (1924-1931)

In 1923, the Russian Soviet Republic assumed its present name of the Union of Soviet Socialist Republics (U.S.S.R.). This necessitated a change in its coinage.

Set III covers the silver coinage of 1924-1931, and were the last silver coins issued for circulation. The 50 kopecks and one rouble feature an industrial worker, symbolic of the modern Soviet Union. The one rouble in this set is scarce as it was issued only in 1924. As with Set II, the hammer and sickle dominate the reverse. Included in this five-coin silver set are:

Denomination	Silver Fineness	Diameter	Denomination	Silver Fineness	Diameter
10 Kopecks	.500	18 mm	50 Kopecks	.900	27 mm
15 Kopecks	.500	20 mm	One Rouble	.900	34 mm
20 Kopecks	.500	22 mm			

These five coins, representing the last circulation silver issues of the Soviet Union are packaged in a custom display holder. The coins in this set will grade Fine or better.

Set III **$22.50**

Exciting Low Mintage Brilliant Uncirculated Coins Commemorating "Heroes of the Sea"

Since 1974, the independent nation of Jamaica has commemorated "Heroes of the Sea" on its $10 crowns. Available both individually and as part of the brilliant uncirculated specimen sets, these 45 mm coins are among the most popular crown issues in the world.

Paramount now has available the $10 Jamaica brilliant uncirculated cupro-nickel crowns from 1974-1976, each with an exceptionally low mintage and a low price!

The 1974 $10 specimen coin pays tribute to Henry Morgan, "King of the Buccaneers" and the first lieutenant governor of Jamaica, and bears a mintage of 14,611.* Christopher Columbus is honored on the second issue of the "Heroes of the Sea" series. Columbus reached Jamaica in 1494 during his second voyage to the new world. Mintage on this issue is 5,788.* The 1976 specimen issue commemorates "The Hero" – Admiral Horatio Nelson, who defended Jamaica from French attack in 1779. Mintage on this issue is an incredible 2,329!*

The eight-coin brilliant uncirculated specimen sets of 1974 and 1975, featuring denominations from 1¢ through $10 and each with an impressively low mintage, are also available. There are, in addition, a limited number of 1975 7-coin specimen sets featuring two pennies (a round bronze cent and a 12-sided aluminum cent) and 5¢ through $1 coins.

Each of these $10 crowns and sets are extraordinary works of art as well as exciting links with history! Moreover, their low mintages make the entire series an investment truly worth having. Order all today and take advantage of our Collector's Special.

SILVER BICENTENNIAL DOLLARS

The United States Bicentennial – its Two Hundredth Anniversary – is certain to be recorded in history as one of the great milestones of modern man. In recognition of this historic occurrence, the San Francisco Mint struck a small number of the specially designed 1776-1976 Eisenhower Bicentennial dollars in *proof 40% silver.* None of these low mintage proof dollars were ever released for circulation! Their mintage accounts for just *1.5% of the combined mintage of all Bicentennial dollars!*

You can understand why we were excited to locate several rolls of this popular Bicentennial silver dollar. They are encapsulated in their own individual clear, form fitting, hard plastic holder. The holders are circular and fit tightly around the Ike dollar – leaving each coin brilliant and completely visible. In this manner, each coin can be held and admired without ever worrying about damaging the coin's flawless surface.

Despite the millions and millions of copper-nickel Bicentennial Eisenhower dollars released into circulation, when was the last time you saw one? Bicentennial coinage is very popular with the American public. A countless number of people have stashed away this coinage as their own personal mementos of the Bicentennial – *and the coins they are saving are not even silver!* But through this offer, YOU can own silver, not copper-nickel Bicentennial coinage.

We are offering this proof silver Eisenhower Bicentennial dollar by the roll (20 pieces) for only $185. Our quantity is definitely limited, so order soon. With its historic appeal and limited mintage, these proof silver dollars will probably sell fast. Don't be left out.

One Roll (20 Pieces) 40% Silver Proof Bicentennial Eisenhower Dollars, Encapsulated, Only **$185.00**

Louisiana Baby Bonds

photo reduced

1880 found the State of Louisiana slowly recovering from the economic calamity of the Civil War fifteen years past. During that tumultuous war between the states, the South was drained of capital in order to support the struggling Confederate armies, and when the Union triumphed in 1865 the Confederate currency was declared worthless. The Confederate Treasury was bankrupt.

One method used by the State of Louisiana to secure needed operating funds was to issue bonds for small amounts of money, such as this $5 issue. Since it was payable to bearer, this bond circulated much like regular paper money. Popularly called a "Baby Bond" because of the engraving of a child on the obverse, it has coupons on the right end that could be detached and redeemed for 7½ cents once every six months.

Engraved by the Western Bank Note Company of Chicago, this lovely note is printed in black with red serial numbers on the front, while the beautifully engraved reverse is green. Two varieties exist: one engraved "Issued for Certificate" at upper left; the other, scarcer one engraved "Issued for Warrant" . . . and you can buy the pair at special savings. These historic and beautiful Baby Bonds will make a handsome addition to your collection – order now.

THE FIRST COOK ISLANDS PROOF SET EVER ISSUED!

Now you can own the FIRST OFFICIAL COINAGE of the Cook Islands . . . the 1972 Proof Set of seven brilliant coins highlighted by two very unusual denominations!

Issued in celebration of the Silver Wedding Anniversary of Queen Elizabeth II and Prince Philip in 1972, the set features the standard $1, 1¢, 5¢, 10¢ and 50¢ coins plus the rare 2¢ and 20¢ denominations. As you well know, few countries still issue pieces of such unusual denomination.

Today this set is truly a collectors item and because of its low mintage — only 17,101 — and first-year-of-issue status, it is extremely difficult to obtain. We finally have located a few and although we've had hundreds of requests for this scarce set, we wish to offer them to our preferred customers first. Please understand, however, that they will be sold on a first-come, first-served basis. You must order without delay!

Truly a page in numismatic history, the 1972 Cook Islands Proof Set is one you must own . . . for few collectors ever will. Send in your order today.

U.S. GOLD PORTFOLIO

Are you willing to let an amateur builder construct your house? Of course not! Yet some people are perfectly content to give their hard earned money to an amateur rare coin "Investment Counselor", hoping this person will construct a sound investment portfolio.

The construction of a house or portfolio is very similar. For both, you need qualified professionals – persons with the knowledge and experience their profession demands. Only these professionals can provide the solid foundation necessary for future construction. This is very important because upon this foundation will rest the walls and roof which provide the protection and shelter you deserve.

Thousands of satisfied customers have turned to Paramount for advice in the construction of their investment portfolios. They know that Paramount, the world's largest international coin dealer, is a leader in the Rare Coin industry. They know the dedicated *Paramount Professionals* include several leading experts within the field of numismatics and are backed by years of experience. Paramount maintains the largest rare coin inventory in the industry giving our customers the widest selection of quality items possible. We also have one of the largest numismatic libraries imaginable enabling our professional coin experts to conduct the research so essential in today's investment counseling. It is only logical that so many people have chosen Paramount as the *one* dealer with whom they have trust and faith.

The *Paramount Professionals* would like to put their knowledge and experience to work for *YOU!* That is why we are now offering UNITED STATES GOLD INVESTMENT PORTFOLIOS.

Available in lots of $1000, $2500, $5000, $10,000 and $25,000, each investment portfolio will consist of carefully selected United States gold coins. The minimum grade of *any* lot will be EF-40 while many will be Mint State 60 or better. This is to provide the greatest opportunity for investment return as experience has shown higher grade coins appreciate in value more rapidly than lower grade. No lot will contain damaged, or otherwise undesirable pieces. Further, each lot will be specially priced so the combined cost of all the coins in any lot will be *more* than the single lot price you pay.

As an example, we have illustrated a typical $2500 portfolio similar to those offered three years ago. Next to their 1975 value, we have shown their 1978 value. (Please note that for price comparison, we have listed the values shown in the 1975 and 1978 *Guide Book of United States Coins,* commonly referred to as the Red Book.) You will notice the entire Investment Portfolio increased 107% in only three years! (While this represents a noticeable increase in just three years, we believe gold coin portfolios should be purchased for long term investment. A *minimum* holding period of five years is recommended.)

PARAMOUNT CLASSICS ANNOUNCES THE AVAILABILITY OF "FOUR SEASONS"

Paramount Classics is exceptionally fortunate to be able to offer you this exclusive collection of enamel miniatures from the world renowned Bétourné Studio of Limoges, France. Limited to an edition of 250, only a few of these sought after editions remain. Only by acting today can you be assured of being able to participate in this once-in-a-lifetime opportunity to acquire the timeless beauty of a Limoges enamel, an art form possessing a richness and permanence available nowhere else.

Each enamel in this collection measures 3¾" x 2½" (outside dimensions 8" by 7") and is accented by the classically designed frame of 22 karat gold leaf, accurate down to the tiny flaws so traditional in antique gold leaf. Right now Paramount can assure you of immediate delivery of all four miniatures in this collection. Each piece will, of course, be signed and numbered. This is a remarkable opportunity to acquire a choice limited edition art classic that is the ultimate collectors item and will complement the finest of homes. Remember, this collection is strictly limited to 250; a prompt reply is the best way to avoid disappointment.

Custom Holder

CARSON CITY STARTER SET

The silver dollars with the greatest popularity in the Morgan Dollar series are those bearing the famous "CC" mintmark of the legendary Carson City Mint in Nevada. These coins are synonymous with the Old West and the romantic lore associated with it.

We are pleased to offer our customers a carefully selected group of ten different Carson City silver dollars. Each coin has been individually inspected by one of our rare coin experts and *will grade a conservative MS-65.* This selection will consist of:

1878-CC	1881-CC	1883-CC	1885-CC	1891-CC
1880-CC	1882-CC	1884-CC	1890-CC	1892-CC

Individually, these ten coins are available for $987. But, we have mounted them in a specially designed three-piece Capital plastic holder shaped like the state of Nevada. *We have also included an additional "CC" Morgan Dollar in MS-65 as a reverse type.* With a total value of over $1000, you can receive these *eleven* coins *and* the deluxe holder for only $950! This is less than the individual price of the ten coins listed! The holder is hard plastic and includes openings for all Carson City Morgan Dollars so you can add the three remaining dates to this beautiful collection as your budget allows.

This offer is a tremendous opportunity for both the novice and advanced Silver Dollar collector. Order now while still available at this price.

1974 Iceland Proof Set

1,100 Years of History

In 1974, the island republic of Iceland, situated in the North Atlantic, issued a beautiful 3-coin proof set in commemoration of the island's first settlement, *eleven hundred years earlier.* This set contains two impressive crown-sized silver coins: the 500 Kronur and 1,000 Kronur. Also included is the 10,000 Kronur made of *solid 90% gold!* The total mintage of this desirable set is just 8,000. Compare this mintage with that of recent United States proof sets which contain *no gold* and it will be easy to understand why this Iceland proof set is in such demand.

We currently have a limited number of these proof sets in stock. Mounted in a custom *Presentation Case,* each set is a lovely Proof 65 and is available for $290.

We suggest you order this set now. Because of its wide appeal to a great number of collectors, we don't expect them to last. This set has proved to be a favorite of world proof set collectors in addition to those who collect silver crowns as well as proof gold. And don't forget its low mintage!

Save $5 With the King

You can save $5 by purchasing the "King" of the Jefferson Nickel series – the scarce 1939-D.

According to the 1978 *Guide Book of United States Coins* by R. S. Yeoman, this coin has a value in "Unc" of $50. But through this offer, you may purchase the 1939-D nickel in *Mint State 65* for only $45. That's a savings of 10%!

The Jefferson Nickel series has taken a "back seat" in recent years. But those days could be over. Interest in this series is growing and the Jefferson nickel may be ready to move to the forefront as a popular series. And when that happens – look out!

That is why we say: order your 1939-D Jefferson Nickel NOW – while they are still available at a reasonable price!

THE DOOMED DOLLAR IS THE END NEAR?

It is entirely possible the United States may have a smaller, circulating dollar coin in the near future. This new coin would take the place of the familiar Eisenhower dollar, thus ending a glorious era of numismatic history which began with the issuance of the first United States silver dollar in 1794. If this happens, the Eisenhower dollar could conceivably become a very popular collectors item and be in great demand.

The Eisenhower set we are offering consists of 26 coins – one of every date and mintmark including *all* silver and proof issues from 1971 through the Bicentennial year of 1976. Although this set covers just six short years (1971-1976), several desirable and low mintage coins are included. As a matter of fact, sixteen (16) of the dollars included in this set were never issued for circulation! The *total* mintage of these sixteen coins is *less* than one third of those struck for circulation in just one year, 1972!

The twenty-six coins comprising the 1971-1976 set we are offering are shown. Their mintage figures are in parentheses.

1876 . . .

More Than Just A Date

1876 was a very important year in the history of the United States. In that year, Rutherford B. Hayes became President as the result of a disputed election, the United States celebrated its 100th Anniversary of Independence, Thomas Edison unveiled a new invention commonly referred to as the electric light bulb, the National Baseball League was formed, and General Custer fought one battle too many.

From the year of 1876, we are offering mint state Trade Dollars. These also represent a chapter of United States history as they were originally struck to compete with the Mexican Peso for trading purposes in China. But these coins were never fully accepted by the Chinese merchants and their minting ceased just a few years later. Because their silver content was greater than that of a regular United States silver dollar, Trade Dollars were readily melted. Also, many of the dollars which are available today exhibit "chop marks" which were stamped into the coin as a mark of approval by the Chinese merchants who had accepted them. Between the chop marks and vast meltings, the number of "problem-free" Trade Dollars available today is just a small percentage of their total mintage. And of these, only a few can be classified as mint state. As you might expect, the limited availability of mint state Trade Dollars has sparked considerable interest in these pieces.

We are pleased to offer several *mint state* 1876 dated Trade Dollars. These coins were struck at the San Francisco Mint and would be a prized addition to any collection. Our stock of these attractive coins is quite small. To be certain *you* receive one of these historic Trade Dollars, place your order NOW!

U.S. Gold Type Sets . . .

In Mint State!

United States gold coins are in demand. Due to several recent purchases, we can now offer complete 8-piece U.S. Gold Type Sets in MS-60. These sets contain the $20, $10, $5 and $2½ coins with the Liberty Head design. It also includes a Saint-Gaudens $20 gold piece and the Indian Head design $10, $5, and $2½ coins. The Saint-Gaudens $20 gold coin is considered by many to be the most beautiful coin ever issued by the United States. The Indian $5 and $2½ coins are unique as they are the only U.S. coins to have an incuse design as opposed to raised lettering and devices as found on all other U.S. coins. The Liberty Head design is well known for its classic beauty. This 8-piece Gold Type set is available in MS-60 for just **$1695.**

For the advanced collector, or serious investor, we can also offer a Deluxe 12-piece U.S. Gold Type set in MS-60. This exquisite set contains the 8 coins already mentioned, in addition to three different types of the $1 gold piece, and a $3 gold piece. Both the Type I (Liberty Head) and Type III (Large size, Indian Head) gold dollars are scarce in mint state. The Type II (Small size, Indian Head) gold dollar is *extremely* rare in mint state. Most specimens encountered are in VF-30 or less. Almost equally rare in mint state is the $3 gold piece. It is one of the most popular and elusive coins in this set. This desirable and rare 12-piece Gold Type Set is available in MS-60 for just **$5595.**

LOW MINTAGE COMMEMORATIVE GOLD!

While most collectors realize the United States issued silver commemorative coins, many are surprised when informed the United States also issued commemorative coins struck in gold! These gold commemoratives were issued between 1903 and 1926 and form one of the most interesting of all U.S. series.

The complete set, as usually collected, consists of just *11 pieces:* nine $1 gold coins and two $2½ gold coins. With the exception of the 1926 Philadelphia Sesquicentennial quarter eagle, all commemorative gold coins have mintages under 20,000 pieces. The 1922 Grant has a mintage of only 5,000 pieces, the lowest of the series. This means that *no more* than 5,000 complete 11-piece sets can exist! Naturally, over the years, pieces have been lost or destroyed, so the actual number of possible sets is *much less.*

As a result of their low mintage and popularity, these gold coins were widely distributed and many became the property of people who were not collectors. Therefore, quite a few of the coins were mishandled and can no longer be considered mint state. Because of this, choice mint state examples are difficult to locate and are eagerly collected.

If you would like to start, or add to your gold commemorative collection, think of Paramount. We maintain one of the largest inventories of mint state commemorative gold coins in the United States and are certain you will be pleased with our conservative grading and prompt, efficient service.

From Malta

A FIRST YEAR PROOF SET WITH A LOW, LOW MINTAGE

For the astute collector, a proof set of first-year-issue and low mintage is nearly always a wise investment. But the 1972 Malta Proof Set offers the collector much, much more.

Issued during the 30th Anniversary year of the George Cross presentation, this first-year collection bears a low mintage of 15,000 AND marks the first time the name "MALTA" appeared on national coinage.

Moreover, the 8-piece set features *fractional coinage* – certainly a rarity in modern-day numismatics. *Malta, in fact, is one of very few countries in the world to issue such currency.* The fractional coins – 2 mils, 3 mils and 5 mils – are distinguished by their scalloped edges. Another unique feature of the proof set is the 10-sided 50¢ coin.

The history of this Mediterranean island nation dates back well over 4,000 years. Evidence of past centuries ruled by Phoenicians, Greeks, Romans and the Knights of Malta is portrayed on the coins and has powerful appeal for numismatists especially interested in historical designs.

Order your 1972 Malta Proof Set now. It is sure to be a fine addition to your collection as well as a fine investment. Because our quantity of these first-year-issue sets is limited, order early. This is one of our most popular proof issues and we'd like for you to have it.

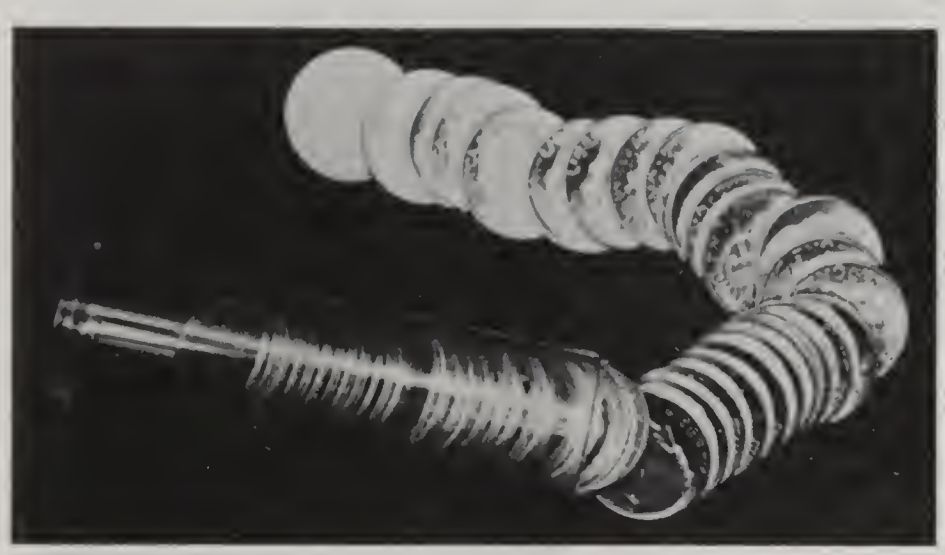
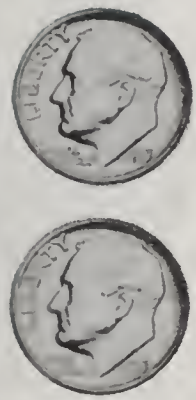
LOW MINTAGE ROOSEVELT DIMES





Throughout numismatic history, certain years have held special meaning for many coin collectors. 1955 was such a year because it marked the temporary closing of the San Francisco Mint *and* gave collectors several low mintage coins – the Roosevelt dime for example.

We are pleased to offer brilliant, Mint State rolls of 1955 *silver* Roosevelt dimes from the three mints which produced them: Philadelphia, Denver, and San Francisco. All three issues have mintages which are among the lowest for regularly issued dimes in the last 35 years!

1955-P	12,828,381
1955-D	13,959,000
1955-S	18,510,000

For example, well over *1 billion* dimes were struck in 1976. That's *twenty-eight times* more than 1955 – and *none* of the 1976 dimes contained silver!

While our small supply lasts you may purchase a Mint State roll set of 1955-PDS dimes (50 brilliant coins per roll) for only $109. Or, if you prefer, single rolls are also available. But no matter which you choose, your complete satisfaction is guaranteed.

Original Uncut Sheets Of Bank Notes From The 1850's

(photo enlarged to show detail)

Before the United States government began issuing paper money in 1861, private banks issued their own bank notes. Today these large and richly engraved notes are eagerly collected for their beauty, scarcity and historic value.

The $20 notes of the New Orleans Canal And Banking Company were printed by the firm of Toppan, Carpenter and Company in sheets of four. These sheets were sent directly to the Canal Bank to be numbered and hand-signed by the Cashier and President. For some reason, probably linked to the economic instability preceding the Civil War, these sheets were never signed and issued. And now you have the opportunity to own a full sheet of these 120-year-old notes at the remarkable price of less than $4. per note!

Measuring 8½ by 14 inches, this uncut sheet is ideal for framing and display in your office or home. Printed in black on the front and brown on the back, the central engraving portrays angels and cherubs supporting the number "20".

Take advantage of this great opportunity today, while our supply lasts!

Foreign Wholesale Lots

GOLD-SILVER-CROWNS And More!

Our inventory reduction sale of foreign coins has been such a huge success that we are offering it one more time!

The four different wholesale lots available are composed of coins *from our regular foreign rare coin inventory.* These lots will *contain only quality coins* which have been *personally selected* by a member of our Foreign Rare Coin Department. No two lots will be identical! *Do not confuse these lots with others seen elsewhere!*

Your satisfaction is guaranteed as each wholesale lot will contain a wide assortment of select coins from throughout the world. These lots will contain rare issues and old issues – silver coins and copper coins – crowns and minors! And – *at least one gold coin,* depending upon the wholesale lot purchased.

Take advantage of this offering! Whether you are a collector, investor, or dealer, you will be pleased with the quality no matter which lot you choose. Hurry! Quantities are limited.

Foreign Coin Wholesale Lots

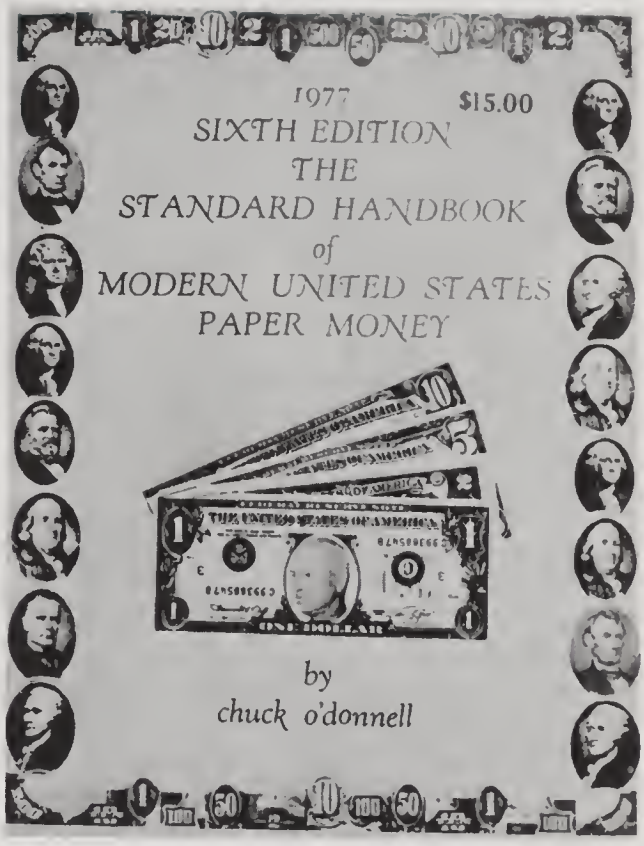
	Minimum Retail Value	You Pay
Wholesale Lot 1 (Contains at least 1 gold coin)	$ 175.00	$ 99.00
Wholesale Lot 2 (Contains at least 2 gold coins)	$ 350.00	$199.00
Wholesale Lot 3 (Contains at least 3 gold coins)	$ 900.00	$499.00
Wholesale Lot 4 (Contains at least 5 gold coins)	$2000.00	$999.00

OR IF YOU PREFER . . .

The above wholesale lots will contain a *general world selection.* However, if you prefer, we can structure any lot so that it will contain a large selection of British and British Commonwealth coins. If this is how you would like *your* lot structured, simply inform us.

Coins of our choice. No two lots identical. Each lot carries a seven-day refund or replacement guarantee.

JUST RELEASED!



The sixth edition of *The Standard Handbook of Modern United States Paper Money* by Chuck O'Donnell has just been released! This impressive 342-page book is unsurpassed in content, depth and completeness. Without a doubt, this book is *the* reference work for small size United States paper money. Whether you are a serious collector or someone who has only a passing interest in the subject, this book is a *MUST!*

Contained between the covers of this monumental work is vital information on everything from one dollar silver certificates up to and including the $100,000 gold certificate. Other information includes serial numbers, plate serials, signature combinations, block letters, the highest official serial numbers for each note, total notes printed, and complete price estimates.

While being the most complete book available on small size United States paper money, this reference work also goes much further. Information on uncut sheets, fifty-one different types of error notes, Allied Military Currency, and Military Payment Certificates are to be found. It is well illustrated and presented in an intelligent and easy-to-understand manner. It is, without a doubt, the best book of its kind. No collector should be without it.

What Every Smart Numismatist Should Own

How well can you tell the difference between a counterfeit and genuine coin? Sometimes even the experts have difficulty! That is why you should arm yourself with the *Model 311 Counterfeit Detection Kit.*

With this Counterfeit Detection Kit, you can perform two very important tests on a coin whose genuineness is in doubt. The first is **weighing** the coin, using the *quality* Ohaus scale contained in this kit. By comparing your findings with the coin's official weight, you will have a very good idea as to whether or not the coin is suspect.

The second test you will be able to perform is **specific gravity**. By knowing the specific gravity, the coin's metallic composition can be determined. This is very important because many counterfeit coins are not composed of the same alloy as genuine coins.

Each *Model 311 Specific Gravity Scale and Counterfeit Kit* by Ohaus will consist of a scale, set of weights, beaker, thermometer, caliper, and the Ohaus Specific Gravity Handbook. This entire kit is available for only $99 – a small price when you consider the alternative.

The *Counterfeit Detection Kit* is a valuable tool. If you are a serious numismatist, you owe it to yourself to have one!

Ohaus Model 311 Counterfeit Detection Kit,

U.S. PAPER MONEY

All notes listed according to Friedberg catalogue numbers.

The following terms are used to describe condition:

Gem – A term reserved for the finest possible condition. A state of perfection that seldom exists.
Unc – Crisp Uncirculated, new, never circulated.
AU – Almost Uncirculated, a note difficult to tell from Unc, such as a new note folded once.
EF – Extremely Fine, a crisp note that shows minor signs of circulation upon close inspection.
VF – Very Fine, a note that shows wear but is still clean, with body, and pleasing in appearance.
F – Fine, a worn but fully intact note. Little body, soiled, no tears in design.
VG – Very Good, limp and well-worn, may have tears along folds running into the design, other defects.
G – Good, heavily circulated, heavily soiled, unsightly appearance.

LOW MINTAGE 1951-S NICKELS AT LESS THAN RED BOOK!

The 1951-S Jefferson Nickel has the lowest mintage of any nickel struck for circulation in the last 26 years. In today's world where it is not uncommon for mintage figures to be well into the hundreds of millions, the number of 1951-S nickels is surprisingly low – a mere 7.8 million.

Now, you can purchase this nickel for a fraction of its catalogue value. According to the 1978 *Guide Book of United States Coins* (Red Book) by R.S. Yeoman, the 1951-S nickel in mint state lists for $3. But because of a recent acquisition, you can purchase one roll (40 pieces) of this desirable coin for only $75! That's less than $1.90 per coin – or just 63% of Red Book!

But order soon. We expect our small quantity to be a quick "sellout". After all – at just 63% of 1978 catalogue value – how long would *you* expect them to last?

One Roll (40 Pieces) 1951-S Jefferson Nickel, Mint State, Only **$75.00**

with every U.S. currency order of $30 or more . . .

Odds Are 10,000 To 1 You'll Like This Note At Face Value!

Fancy serial number collecting is just one more enjoyable way to build a blue ribbon paper money collection. Collectors seek many kinds of novel numbers, including "repeaters" (such as 53535353), "ladder" numbers (such as 23456789) or multiple digits, in which the same number is repeated (66662233, for example). Another fancy serial number is the palindrome, or "radar" serial, which reads the same forward or backward. The note illustrating this ad is an example. "Radar" notes are by no means common. In fact, mathematically only one in 10,000 notes can be a Radar, and of course the vast majority of them get into circulation unnoticed by the public.

Our buyer returned from a convention recently with a group of crisp Uncirculated Radar serial numbers. While they last, **with any U.S. paper money order of $30 or more from this issue of the *Collector*,** you can buy one for just $1! A great deal? Yes! But order today – **offer expires September 30, 1977.**
